

AMETEK Announces Agreement to Acquire Indicor Instrumentation

May 6, 2026

BERWYN, Pa., May 6, 2026 /PRNewswire/ -- AMETEK, Inc. (NYSE: AME) today announced that it has entered into a definitive agreement to acquire a portfolio of instrumentation businesses from Indicor, LLC ("Indicor Instrumentation") in an all-cash transaction valued at approximately \$5.0 billion.

Indicor Instrumentation is a group of leading businesses that design and manufacture mission critical solutions for demanding industrial and scientific applications. Its products serve customers across attractive end markets that align closely with AMETEK's existing portfolio and generate a substantial base of recurring revenue from consumables, services, and aftermarket support.

"Indicor is an exceptional fit for AMETEK," said David A. Zapico, AMETEK Chairman and Chief Executive Officer. "In a single transaction, we are adding a high-quality group of businesses with differentiated technologies, complementary market positions, and attractive growth prospects. We see meaningful potential to create value through integration into AMETEK's operating model."

Indicor Instrumentation generates approximately \$1.1 billion in annual sales and has profitability levels consistent with AMETEK. Following closing of the transaction, the businesses will be integrated into AMETEK's Electronic Instruments Group (EIG) and Electromechanical Group (EMG) based on product offerings and market alignment.

AMETEK plans to fund the acquisition through borrowings under its existing credit facility and new debt issuance. The transaction is subject to customary closing conditions, including applicable regulatory approvals, and is expected to close in the second half of 2026.

AMETEK will host a conference call to discuss the acquisition at 8:00 a.m. Eastern Time on May 6, 2026. The live audio webcast will be available and later archived in the Investors section of www.ametek.com.
