"AMETEK delivered excellent results in the second quarter with record sales, operating income and adjusted earnings per share," commented David A. Zapico, AMETEK Chairman and Chief Executive Officer. "Our results were ahead of expectations driven by strong organic sales growth and continued impressive operating performance. “EMG had another strong quarter with excellent sales growth and outstanding operating performance resulting in continued strong margin expansion,” commented Mr. Zapico.

2022 Outlook

This continued success reflects the hard work and commitment of all AMETEK colleagues, the quality of our niche, differentiated businesses, and the proven strength of the AMETEK Growth model. Our flexible operating structure allows us to quickly react to changing economic conditions, while our balance sheet and strong cash flows position us well to continue to deploy capital on value enhancing, strategic acquisitions,” noted Mr. Zapico.

Use of Non-GAAP Financial Information

The Company supplements its consolidated financial statements presented on a U.S. generally accepted accounting principles ("GAAP") basis with certain non-GAAP financial information to provide investors with greater insight, increased transparency and allow for a more comprehensive understanding of the information used by management in its financial and operational decision-making. Reconciliation of non-GAAP measures to their most directly comparable GAAP measures are included in the accompanying financial tables. These non-GAAP financial measures should be considered in addition to, and not as a replacement for, or superior to, the comparable GAAP measure, and may not be comparable to similarly titled measures reported by other companies.

The Company believes that these measures provide useful information to investors by reflecting additional ways of viewing AMETEK's operations that, when reconciled to the comparable GAAP measure, helps our investors to better understand the long-term profitability trends of our business, and facilitates easier comparisons of our profitability to prior and future periods and to our peers.
